

STORYBOARD

1. WIREFRAME

2. PAGE LIST AND PURPOSE

Index

- First-contact splash page; houses the global navigation bar.
- Clickable profile photo opens an email draft with my ID number in the subject.

Professional

- Shows a clean, modern resume plus vision & mission statements.
- Highlights key skills and a short list of my post-graduation career goals.

Personality

- Explains one of my traits and why it matters.
- Displays favourite quote, hero, and Keirsey Temperament Test screenshots.

Personal Development

- Summarises & reflects on the *Twelve Pillars* (Ch. 4–7).
- Lists degree title, top three AI skills, and links to the full reflection PDF.

Storyboard

- Presents hand-drawn wireframes, theme description, features list.
- Shows the free-hosting URL and links to the PDF version of the storyboard.

Reference

- Bibliography of all sources used to create my portfolio.

3. THEME

The design was inspired by a game that I like to play, *League of Legends*, which uses a dark navy-blue color palette with gold accents throughout its interface. I wanted to bring that same look and feel to my site because I liked how sleek it is, and since I usually go for lighter colors (pink is my favorite), I wanted to try something more universal this time. The dark background helps keep things grounded, while the gold borders and highlights give it a clean, polished finish. It's a style I connect with personally, and I felt it would help my portfolio stand out while still looking professional.

The city lights background also felt like a natural fit. It ties into the gold tones on the site and adds energy to the overall design.

4. KEY FEATURES

- Responsive navigation bar on every page.
- Clickable profile photo that auto-opens email with ID in subject.
- Embedded PDF for Personal Development submission.
- External hyperlink (LinkedIn).
- Personality test screenshots displayed.
- Smooth CSS hover effects.
